Boston Cardiac Foundation

"Helping One Heart at a Time"

The BCF team has just returned after completing a new mission in Cape Verde, one of the islands off the African coastline. During this mission, our team implanted 19 new single and dual-chamber pacemakers for patients in desperate need. In addition, there were several lectures to train doctors and staff members for follow-up care. BCF greatly appreciates the donation from Medtronic during the mission. Our team to Cape Verde included Dr. Leon Ptaszek (MGH), Dr. Bill Hucker (MGH), Brenda Houde (coordinator and radiology tech), and Angela Cammilleri (Medtronic). This mission was coordinated with the help of Dr. Doreen Defaria (MGH) and Dr. Oyere Onuma (MGH).

Our annual mission to India was completed in February 2024, where we implanted new pacemakers and ran follow-up clinics. Our highlight this year was several lectures in hospitals in India to the physicians and local staff.

Boston Cardiac Foundation and Dr. Midha received special recognition as healthcare pioneers at the New England Choice Awards in 2023.

The Boston Cardiac Foundation is a non-profit organization that brings medical technologies and services to those in need around the world. The BCF team comprises physicians, nurses, and technologists who perform cardiac procedures such as pacemaker implants with follow-up, coronary stenting, and angioplasty free of charge for patients who cannot afford these lifesaving treatments.

"The Boston Cardiac Foundation strives to fulfill our motto of 'Helping One Heart at a Time,'" shared Dr. Salil Midha. "It has been an honor to help those in need all over the world for 33 years. I am thankful our team is able to make a difference for so many patients."
