Boston Cardiac Foundation

"Helping One Heart at a Time"

In February 2026, Dr. Midha completed his 46th charitable mission to India, marking another milestone in the Boston Cardiac Foundation's (BCF) ongoing commitment to global healthcare. Looking ahead, BCF is launching an exciting new initiative to provide widespread CPR education to staff, patients, and the public across India, proudly partnering with Seattle's Medic One. In addition to this regional effort, BCF plans to establish a second cardiac program in Karnal, India. True to our mission of holistic care, we are also expanding our preventative education. BCF members will soon participate in heart disease prevention seminars both locally in Boston and in India. Finally, we are proud to share that Dr. Midha and Dr. Ptaszek have furthered our academic contributions by co-authoring a chapter in the latest edition of Progress in Cardiology. It remains our highest honor to serve communities worldwide.

The Boston Cardiac Foundation is a non-profit organization that brings medical technologies and services to those in need around the world. The BCF team comprises of physicians, nurses, and technologists who perform cardiac procedures such as pacemaker implants with follow-up, coronary stenting, and angioplasty free of charge for patients who cannot afford these lifesaving treatments.

"The Boston Cardiac Foundation strives to fulfill our motto of 'Helping One Heart at a Time,'" shared Dr. Salil Midha. "It has been an honor to help those in need all over the world for 35 years. I am thankful our team is able to make a difference for so many patients."

Boston Cardiac Foundation and Dr. Midha received special recognition as healthcare pioneers at the New England Choice Awards in 2023.
